

Do you have borderline personality disorder? Are you in a romantic relationship?

You may be eligible to participate in a **treatment research study** at York University.

We are looking for individuals between the ages of 18 and 70 who have a romantic partner, and both partners are able and willing to:

Participate in an ongoing treatment study for up to 6 months

Complete questionnaires about emotions, thoughts, and behaviours

Complete a structured interview that will assess your emotional and psychiatric history

Attend couple therapy sessions with their partner

Complete a brief measure of their feelings every day on their smart phone for 3 weeks

You will be compensated up to \$250 for your participation.

During periods of social distancing, this study will take place virtually through secure videoconferencing.

Are you and your partner interested? Please contact the TULIP Lab Research Team by e-mail. Your e-mail will be returned as soon as possible!
